Product information

Nostepinne 28cm

Art.Nr.: 180-0001097-028000 / GTIN: 0812208022292 / Brand: ChiaoGoo

Length: 28cm

The Nostepinne is a traditional Norwegian hand tool to wind wool by hand (e.g. from a reel) to a ball. The Nostepinne is made of particularly sturdy rubber wood and, at approx. 28 cm, has the perfect length to hold virtually any ball of yarn. In contrast to the normal hand winding, the ball is not wound too tightly and a ball with a central hole is formed, whereby the thread can be removed from the inside of the ball. Ideal to use in combination with the yarn butler.
