The ChiaoGoo Single Points are known for their precise conical shaped, handcrafted tips and are perfectly balanced. The bamboo version is made of Moso bamboo, the world‘s largest and strongest bamboo species. Its special properties are one of the secrets of the ChiaoGoo bamboo needles. The bamboo patina effect is accomplished through a special heat refining process.
In order to meet ChiaoGoo‘s high quality standards, all sizes over 10.0 mm are made of red birch wood, which has a high degree of stability due to its density. Birchwood needles are of light weight, allowing a comfortable working without fatigue. The needle size range from 2.25 to 25 mm. Needles of 25 mm thickness are made of white birch wood.
