Product information

Strumpfstricknadeln CUBICS NATURAL

Art.Nr.: ww2241 / Brand: Prym

Sales unit: 5 St

When nature gets straight to the point: The square shape of our NATURAL CUBICS double-pointed knitting needles provides a unique knitting experience, producing an extra-regular stitch pattern. The pleasant feel and high stability of these double-pointed knitting needles in fine polished wood also enhance the knitting experience. The points are consistently tapered and are shaped to glide effortlessly into the stitches. This makes knitting socks, stockings, caps and gloves real fun. These double-pointed knitting needles have a natural charm and, as a bonus, the packaging is completely plastic free.
