Product information

auswechselbare Nadelspitzen TWIST LACE

Art.Nr.: cg7504 / Brand: ChiaoGoo

Sales unit:	2 St
Material:	Edelstahl

The exchangeable needle tips TWIST RED LACE Premium stainless steel can be combined with the patented and high-quality red cables. However, it is also possible to use the co-rotating transparent nylon cables of the SPIN series. Each TWIST cable has a small hole in the connector at the end. Here can, with the help of the cable wrench, the connection of needle and cable be tightened or an end stopper be fastened to secure the knitting projects. The needles are perfectly balanced and the size is permanently lasered on each needle.
The exchangeable needle tips TWIST RED LACE Premium stainless steel have three different thread sizes, L (large) for larger threads, S (small) for small threads, and M (mini) for very fine threads that are also laser- engraved on the needle. The different threads of cable and needle tip are not directly combinable. However, with the help of an adapter, L-needle tips can be connected with S-cables and S-needle tips with M-cables.
