You want original stockings? Beginners and experienced knitters find knitting socks with this colourful set of needles simply more fun. Precision-shaped needle points and a very smooth surface make it easier to knit in rounds, because this makes the stitches easy to pick up and lets them glide smoothly over the needles. The double-pointed knitting needles are colour-sorted according to size, so that you have the set of needles you want immediately to hand. Aluminium makes the needles extremely light and unbelievably comfortable to hold. This brings pure enjoyment to your knitting, even when working on longer projects. The coloured double-pointed knitting needles are available only as a set.
