Sales unit: 1 Set

Product information

Item measurement: 3,50 - 8,00 mm

The Tunisian crochet technique requires specific hooks: Tunisian crochet hooks. The technique produces modern patterns that appear woven. This set contains eight high-quality crochet hooks in sizes 3.5-8 mm and four cords in lengths 60-120 cm. This means that your Tunisian crochet hooks can easily be combined with the right cord and then used for a range of projects: cushions, blankets, scarves, table cloths and also pot cloths. Our NATURAL range Tunisian crochet hooks are made from fine-grained wood for an enticing, warm feel. The surface is polished smooth and the connection between point, cap and cord does not cause any resistance at all. Our Tunisian crochet hooks are sustainable across the board–made from natural material and delivered in plastic-free packaging.
