Is a knitting pattern with several colours challenging? Not with the knitting thimble “TheKnitRing”, because the innovative, handy tool makes it easy to knit patterns with up to three colours. “Easy to use” are the magic words – even beginners can achieve creative knitting designs with ease. Knit patterns with two or three colours: Anything is possible with “TheKnitRing” – the threads are kept neatly sorted and within easy reach of the knitting needle at all times, without the hassle of a tangled ball of wool. Simply guide the main thread through the orange slider and hold the decorative threads in place on the knitting ring with the upper thread guide. The slider makes it easier to ideally position the main thread for knitting: If the main

thread is not needed, it can simply be pushed behind the pattern threads, which are then at hand for further knitting. The knitting thimble “TheKnitRing” fits perfectly on every finger thanks to its flexible and size-adjustable band. It is made of comfortable soft plastic and therefore guarantees a secure grip at all times, even when your hands are sweaty.
