Sales unit: 1 St.

Tweed

Product information

We're launching a new yarn quality: Tweed Recycled, consisting of 80% fine, recycled wool and 20% recycled cashmere.

Tweed has an authentic and rustic look but feels soft and comfortable against the skin. In other words, it is suitable for the whole family, even the smallest ones. We have therefore created a collection for kids and adults, with patterns for some of our most popular designs such as Kelly and Guernsey.
The Wilbur sweater is brand new, and the combination of cables and tweed is a classic that is just as beautiful today as it was 20, 40, or 100 years ago. You can safely throw yourself over your knitting needles because these are garments that stay current for a long time.

Happy knitting!

Qualitäten: Tweed Recycled

SandnesGarn magazines are only available in combination with the yarn qualities and should not be sold individually to end customers.
