Sales unit:	1 St
Material:	Ebenholz

Product information

The Lantern Moon Interchangeable Tunisian Crochet Hook is made of ebony, one of the world’s most precious and valuable woods. Just like all the needles and crochet hooks, the Interchangeable Tunisian crochet hook has a liquid silk finish that ensures a snag free glide and crochet experience. The meticulous finish on the hook end ensures easy manoeuvrability and forward stitch passing. The connecting join between the cord and hook is snug and smooth to enable stitches to move easily. Available in the standard range of sizes, the interchangeable Tunisian hook is available along with a variety of cord lengths.
