Art.Nr.: 136-0222930-300000 / GTIN: 4002272229307 / Brand: Prym

Sales unit:	1 Set
Item measurement:	3.00 - 8,00 mm

Product information

Feel like making an elegant, knitted pullover or a cosy jacket? This set offers 10 pairs of bamboo single-pointed knitting needles. It contains all needle sizes from 3.0 to 8.0 mm, including the special quarter sizes 3.25 mm and 3.75 mm. The suitable needle for the next knitting project is therefore quickly at hand. The pleasant, warm feel from the single-pointed knitting needles made from light bamboo and their smooth, non-slip surface make knitting a pleasure; they are just perfect for working longer sessions on a project. Despite being very sturdy, they are very flexible. The points are precision-shaped, are not fibrous and allow the needle to be inserted with ease into each stitch without splitting the yarn. The knob at one end of the needle also prevents the stitches from slipping off the needle. The needle size of these 33 cm long single-pointed knitting needles is printed centrally on the needle for ease of reading. Where sustainability is concerned, the single-pointed knitting needles score not only because they are made from quickly regrowing Chinese bamboo, but also because of their environmentally friendly manufacturing process and the plastic-free packaging. All needles are well sorted in the high-quality cotton pouch, and the colour combination green and beige emphasizes the natural character.

- Set of 10 pairs of single-pointed knitting needles
- Smooth, non-slip surface
- Precisely crafted, fibre-free points
- Pouch made from 100% cotton
- Ideal for allergy sufferers
