Product information

Wollwickler

Art.Nr.: 216-0003205-000000 / GTIN: 0051221732058 / Brand: Clover

Product information

Color: blau

Yarn Ball Winder

Smoothly wind balls of yarn with gentle effort
Wind a substantial amount of yarn.

The distance between the bobbin and the yarn guide has been designed to allow ample space for the winding of light knitting wool and ordinary skein (approx. 100 g). Winding capacity: approx. 130 g (for light knitting wool)

Winds yarn efficiently

The bobbin turns 4.4 times for each rotation of the handle. This achieves efficient winding of balls of yarn with little movement.

Handle can be turned with gentle effort

The long handle makes it easy to turn with gentle effort. The handle is oval-shaped for easy gripping. The clamp is equipped with thick rubber to hold the device firmly to the desk for stable winding.
