Art.Nr.: 136-0673139-000000 / GTIN: 4002276731394 / Brand: Prym

Sales unit: 10 St

Product information

Tool holder and height compensation – anyone who frequently works with the VARIO Creative Tool from Prym will particularly appreciate the inlays. They ensure that all tools for punching, riveting or attaching eyelets and press fasteners are held securely in the VARIO Creative Tool and work precisely. Frequent insertion and removal of the various punching and processing tools can result in the inlays no longer functioning optimally. The small tool holders also tend to fall off the sewing table unnoticed. With this set, Prym offers an uncomplicated replacement especially for the VARIO Creative Tool: It contains 9 tool holders and a height leveller made of high-quality plastic.
Not suitable for use with VARIO pliers or tripod.
