Product information

darning thread

Art.Nr.: 278056_lk / Brand: Pro Lana

Sales unit:	5 g
Material:	75% Wolle/25% Polyamid
Length:	ca. 41 m

This fine yarn is ideal for reinforcing high-stress areas such as the heels and toes of socks, as well as for mending and repairing your favorite pieces. Whether you’re patching up small holes, stabilizing wornout areas, or making your knitting projects more durable, this yarn is the perfect choice. Thanks to its exceptional robustness, it remains shaperetentive and durable even under heavy use. As a supplementary thread, it adds extra stability to your socks or garments without compromising comfort or appearance. It blends seamlessly with your main yarn, ensuring that your creations are not only beautiful but also practical.
