Material:	Kunststoff

Product information

For even yarn tension with addiExpress knitting machines. With the set consisting of 2 tension guides, it is no longer necessary to hold the yarn - simply fix it in the tension guide and start knitting. The addi tension guide is specially adapted for both sizes of addiExpress knitting machines (Professional and Kingsize). It can therefore be fixed particularly securely in the golden yarn guide of the machines.

All sizes of yarn recommended for addiExpress (4-8 mm needle size) can be fixed with the thread tensioner. Hole sizes ∅ 3 - 4 mm
