Product information

Werkzeug-Set Jersey-Druckknöpfe 10 & 12 mm

Art.Nr.: 136-0673142-000000 / GTIN: 4049906731423 / Brand: Prym

Jersey press fasteners with smooth cap coatings or pearl caps are a secure way to fasten clothing made from thin or stretchy fabric and add a shiny or colourful accent at the same time. The brightly coloured Jersey press fasteners in particular look great on shirts, blouses, jackets, bags, and other accessories. The mid-strength closure is ideal for these items. The VARIO Creative Tool with tools set for Prym Jersey press fasteners makes it easy to attach 10 and 12 mm diameter Jersey press fasteners. The specialist attachments for coated and pearl caps click into place in the VARIO Creative Tool. Now simply insert the press fastener, position the fabric and press down the handle – your Jersey press fastener is securely attached to the fabric, with no need to pre-punch a hole. The tools set is also compatible with the VARIO pliers. It contains 4 tools and instructions. The blackberry-coloured marking on the packaging and on the tools themselves show you what you need. All tools and consumables in the Jersey product family are coded using this colour. This colour coding makes the non-sew item system easy to follow.
