Ingrid Project Bag – the soft leather bag that keeps your yarn in place
Ingrid from muud is a thoughtfully designed project bag crafted from soft, premium leather. The supple construction makes it comfortable to carry and flexible to use—while giving the bag a timeless, stylish look.
Made with knitters in mind, Ingrid is perfect for keeping your yarn clean, tangle-free, and ready to use. Place each skein in its own interior pocket, thread the yarn through the top, and knit directly from the bag without tangling. A spacious main compartment gives room for your active project, while outer pockets provide easy access to your essential tools.

At the same time, Ingrid’s clever layout also makes it useful far beyond knitting. Whether you want to organise creative projects, crafting supplies, or simply your everyday essentials, this soft leather bag adapts to your needs—at home and on the go.

Features
- Spacious main compartment for knitting projects or everyday items
- Interior pockets for individual yarn skeins or small accessories
- Outer pockets for tools and quick-access essentials
- Soft leather construction with drawstring closure
- Keeps yarn organised, clean, and tangle-free
