Made from upcycled cotton, Eco Vita Multico is the multicoloured version of our popular Eco Vita 4 yarn. It is a thick, tubular yarn that’s perfect to macrame, knit or crochet home accessories, such as baskets, plant pots, cushions and lampshades. Transformed from cotton that is discarded during the production process, this planet-friendly yarn is available in 6 ombre shades. You may know this yarn by its previous name Nova Vita. It's the same great yarn just with a new name.
