Length:	ca. 225 m
Farbe:	schwarz

Product information

This sustainable DK wool is spun from natural-coloured Jacob fleece in tones of grey, brown/black and ecru, to bring a distinctive earthy quality to your projects. Jacob fibres offer incredible stitch definition that allow cables, textures and Fair Isle to shine, and, dating back centuries, this British fleece also brings plenty of rural heritage to every stitch. The wool is ideal for outdoor garments, sweaters and blankets that will keep you warm year after year, season after season. Lofty, cosy and beautifully hardwearing, Jacob DK yarn is British wool at its best.
