Product information

Eco Vita Multico is made from recycled cotton and is the multicolored version of our popular Eco Vita 4 yarn. It is a thick, tubular yarn that is perfect for macramé, knitting, or crocheting home accessories such as baskets, planters, pillows, and lampshades.
This eco-friendly yarn is made from cotton scraps generated during textile production and is available in 6 color shades. You may know this yarn by its former name, Nova Vita. It’s the same fantastic yarn, just with a new name.
