A man needs a lot of socks in the closet - but the quality and the look should be right! Whether worn with casual jeans, corduroy trousers or an elegant suit – elegant socks with a soft shine and a slight melanche effect can be knitted from the Business Bamboo yarn. These business socks are welcome to flash under the trouser leg! The yarn consists of fine merino wool and bamboo fibers and is therefore something special. The material mix is soft and very comfortable to wear. The Business Bamboo yarn can of course also be used for women‘s socks.
