Eight festive DIY projects in one Advent calendar
The Prym DIY Advent calendar is perfect for getting creative in the Christmas season. It contains 24 high-quality tools and accessories that can be used to create eight festive projects - for Christmas decorations at home or as gifts. The projects are focused on different craft techniques. No prior experience is needed: Even beginners can tackle them with ease, making them ideal for creative craft afternoons with children.

The perfect introduction to sewing, crocheting, knitting and weaving
From Christmas tree decorations to decorative gifts and greetings cards, the DIY projects from the creative Advent calendar will bring you the joy of making things yourself - and they’re incredibly versatile, too. They also offer an easy introduction to various craft techniques, such as knitting a Christmas tree using a knitting dolly, hand-sewing a felt elk or weaving a bauble using the mini loom. All the materials and tools needed for the craft projects are hidden behind the doors of the Advent calendar. Many tools, such as a tassel maker, a wooden knitting dolly and a high-quality pair of embroidery scissors, can also be used for other creative projects. These three items are also available exclusively in this Advent calendar.

Festive decorations for the living room
The finished projects from the craft Advent calendar will brighten up your home - and the calendar itself is a real eye-catcher, too. The front is adorned with stylish Christmas trees in festive green and red. The individual doors can be pulled out of the calendar and pushed back in again, so the front still looks immaculate even when all the compartments have been emptied.
